

Applied Mathematics-Economics

The Applied Mathematics-Economics concentration is designed to reflect the mathematical and statistical nature of modern economic theory and empirical research. This concentration has two tracks. The first is the advanced economics track, which is intended to prepare students for graduate study in economics. The second is the mathematical finance advanced economics track, which is intended to prepare students for careers in finance or financial engineering. Both tracks have A.B. degree versions and Sc.B. degree versions, as well as a Professional track option.

Standard program for the A.B. degree (Advanced Economics track) - through the class of 2015:

Prerequisites:
MATH 0100 Introductory Calculus, Part II
MATH 0520 Linear Algebra

Course Requirements:

Applied Math Requirements

(a) 1
APMA 0350 Applied Ordinary Differential Equations
& APMA 0360 Methods of Applied Mathematics I, II 2

Select one of the following:
APMA 0160 Introduction to Scientific Computing
CSCI 0040 Introduction to Scientific Computing and Problem Solving
CSCI 0150 Introduction to Object-Oriented Programming and Computer Science
CSCI 0170 Computer Science: An Integrated Introduction

Select one of the following:
APMA 1200 Operations Research: Probabilistic Models
APMA 1210 Operations Research: Deterministic Models
APMA 1650 Statistical Inference I

(b) 1

Select two of the following:
APMA 1200 Operations Research: Probabilistic Models
APMA 1210 Operations Research: Deterministic Models
APMA 1660 Statistical Inference II
APMA 1670 Statistical Analysis of Time Series
APMA 1680 Nonparametric Statistics
APMA 1690 Computational Probability and Statistics
APMA 1700 The Mathematics of Insurance
APMA 1740 Recent Applications of Probability and Statistics
MATH 1010 Analysis: Functions of One Variable

Economics Requirements:
ECON 1130 Intermediate Microeconomics (Mathematical) 3
ECON 1210 Intermediate Macroeconomics
ECON 1630 Econometrics I

Two 1000-level courses from the "mathematical-economics" group, below:
ECON 1170 Welfare Economics and Social Choice Theory
ECON 1225 Advanced Macroeconomics: Monetary, Fiscal, and Stabilization Policies
ECON 1465 Market Design: Theory and Applications
ECON 1470 Bargaining Theory and Applications

ECON 1640 Econometrics II
ECON 1650 Financial Econometrics
ECON 1750 Investments II
ECON 1759 Data, Statistics, Finance
ECON 1810 Economics and Psychology
ECON 1820 Behavioral Economics
ECON 1850 Theory of Economic Growth
ECON 1860 The Theory of General Equilibrium
ECON 1870 Game Theory and Applications to Economics

One additional 1000-level economics course.

Total Credits 12

1 No course may be used to simultaneously satisfy (a) and (b).
2 APMA 0330 and APMA 0340 may be substituted with advisor approval.
3 Or ECON 1110 with permission.

Standard program for the Sc.B. degree (Advanced Economics track) - through the class of 2015:

Prerequisites:
MATH 0100 Introductory Calculus, Part II
MATH 0520 Linear Algebra

Course requirements:

Applied Mathematics requirements:

(a) 1
APMA 0350 Applied Ordinary Differential Equations
& APMA 0360 Methods of Applied Mathematics I, II 2

Select one of the following:
APMA 0160 Introduction to Scientific Computing
CSCI 0040 Introduction to Scientific Computing and Problem Solving
CSCI 0150 Introduction to Object-Oriented Programming and Computer Science
CSCI 0170 Computer Science: An Integrated Introduction

Select one of the following:
APMA 1200 Operations Research: Probabilistic Models
APMA 1210 Operations Research: Deterministic Models
APMA 1650 Statistical Inference I

(b) 1

Select two of the following:
APMA 1200 Operations Research: Probabilistic Models
APMA 1210 Operations Research: Deterministic Models
APMA 1660 Statistical Inference II
APMA 1670 Statistical Analysis of Time Series
APMA 1680 Nonparametric Statistics
APMA 1690 Computational Probability and Statistics
APMA 1700 The Mathematics of Insurance
APMA 1740 Recent Applications of Probability and Statistics
MATH 1010 Analysis: Functions of One Variable

Economics requirements:
ECON 1130 Intermediate Microeconomics (Mathematical) 3
ECON 1210 Intermediate Macroeconomics
ECON 1630 Econometrics I

Three 1000-level courses from the "mathematical-economics" group, below:
ECON 1170 Welfare Economics and Social Choice Theory
ECON 1225 Advanced Macroeconomics: Monetary, Fiscal, and Stabilization Policies
Applied Mathematics-Economics

ECON 1465  Market Design: Theory and Applications
ECON 1470  Bargaining Theory and Applications
ECON 1640  Econometrics II
ECON 1650  Financial Econometrics
ECON 1750  Investments II
ECON 1759  Data, Statistics, Finance
ECON 1810  Economics and Psychology
ECON 1820  Behavioral Economics
ECON 1850  Theory of Economic Growth
ECON 1860  The Theory of General Equilibrium
ECON 1870  Game Theory and Applications to Economics

Select two 1000-level courses from the "financial economics" group:
ECON 1630
ECON 1210
ECON 1130

Economics Requirements:
Select one of the following:
(a)
APMA 1650
APMA 1200

(b)
APMA 0360 & APMA 0350

Select one of the following:
APMA 0330 and APMA 0340 may be substituted with advisor approval.

Total Credits 2

Standard program for the A.B. degree
(Mathematical Finance track) - through the class of 2015:

Prerequisites:
MATH 0100  Introductory Calculus, Part II
MATH 0520  Linear Algebra

Requirements:
Applied Mathematics requirements:
(a)
APMA 0350  Applied Ordinary Differential Equations and Methods of Applied Mathematics I, II
Select one of the following:
APMA 0160  Introduction to Scientific Computing
CSCI 0040  Introduction to Scientific Computing and Problem Solving
CSCI 0150  Introduction to Object-Oriented Programming and Computer Science
CSCI 0170  Computer Science: An Integrated Introduction
APMA 1200  Operations Research: Probabilistic Models
APMA 1650  Statistical Inference I

Select one of the following:
APMA 1180  Introduction to Numerical Solution of Differential Equations
APMA 1330  Methods of Applied Mathematics III, IV
APMA 1660  Statistical Inference II
APMA 1670  Statistical Analysis of Time Series

Economics Requirements:
ECON 1130  Intermediate Microeconomics (Mathematical) 2
ECON 1210  Intermediate Macroeconomics
ECON 1630  Econometrics I
Select two 1000-level courses from the "financial economics" group: 3
ECON 1650  Financial Econometrics

Select one 1000-level course from the "mathematical economics" group:

Total Credits 12

Standard program for the Sc.B. degree
(Mathematical Finance track) - through the class of 2015:

Prerequisites:
MATH 0100  Introductory Calculus, Part II
MATH 0520  Linear Algebra

Course requirements:
Applied Mathematics requirements:
(a)
APMA 0350  Applied Ordinary Differential Equations and Methods of Applied Mathematics I, II 1
Select one of the following:
APMA 0160  Introduction to Scientific Computing
CSCI 0040  Introduction to Scientific Computing and Problem Solving
CSCI 0150  Introduction to Object-Oriented Programming and Computer Science
CSCI 0170  Computer Science: An Integrated Introduction
APMA 1200  Operations Research: Probabilistic Models
APMA 1650  Statistical Inference I

Select two of the following:
APMA 1180  Introduction to Numerical Solution of Differential Equations
APMA 1330  Methods of Applied Mathematics III, IV
APMA 1660  Statistical Inference II
APMA 1670  Statistical Analysis of Time Series

#### Total Credits: 13

1. APMA 0330 and APMA 0340 may be substituted with advisor approval.
2. No course may be used to simultaneously satisfy the "financial economics," the "mathematical economics," or the "data methods" requirements.
3. Or ECON 1110 with permission.

### Standard program for the Sc.B. degree (Mathematical Finance track) - class of 2016 and beyond:

**Prerequisites:**

- MATH 0100 Introductory Calculus, Part II
- MATH 0520 Linear Algebra

**Course Requirements:**

- Select two 1000-level courses from the "financial economics" group: 2 credits
- Select one 1000-level course from the "mathematical economics" group: 1 credit
- Select three 1000-level courses from the "financial economics" group: 3 credits
- Select two 1000-level courses from the "mathematical economics" group: 2 credits

**Economics Requirements:**

- ECON 1130 Intermediate Microeconomics (Mathematical) 3 credits
- ECON 1210 Intermediate Macroeconomics 1 credit
- ECON 1630 Econometrics I 1 credit
- Select one 1000-level course from the "data methods" group: 1 credit
- ECON 1305 Economics of Education: Research 2 credits

**Engineering and Computer Science Requirements:**

- APMA 0350 & APMA 0360 Applied Ordinary Differential Equations and Methods of Applied Mathematics I, II 2 credits
- Select one of the following:
  - APMA 0160 Introduction to Scientific Computing (preferred)
  - CSCI 0040 Introduction to Scientific Computing and Problem Solving (preferred)
  - CSCI 0150 Introduction to Object-Oriented Programming and Computer Science
  - CSCI 0170 Computer Science: An Integrated Introduction
  - APMA 1200 Operations Research: Probabilistic Models 1 credit
  - APMA 1650 Statistical Inference I 1 credit
  - APMA 1180 Introduction to Numerical Solution of Differential Equations 2 credits
- APMA 1330 Methods of Applied Mathematics III, IV 1 credit
- APMA 1660 Statistical Inference II 1 credit
- APMA 1670 Statistical Analysis of Time Series 1 credit
- APMA 1680 Nonparametric Statistics 1 credit
- APMA 1690 Computational Probability and Statistics 1 credit
- APMA 1700 The Mathematics of Insurance 1 credit
- APMA 1720 Monte Carlo Simulation with Applications to Finance (preferred) 2 credits
- APMA 1740 Recent Applications of Probability and Statistics 1 credit
- MATH 1010 Analysis: Functions of One Variable 1 credit
- APMA 1225 Advanced Macroeconomics: Monetary, Fiscal, and Stabilization Policies 2 credits
ECON 1310  Labor Economics
ECON 1360  Health Economics
ECON 1410  Urban Economics
ECON 1510  Economic Development
ECON 1520  The Economic Analysis of Institutions
ECON 1530  Health, Hunger and the Household in Developing Countries
ECON 1540  Econometrics II
ECON 1650  Financial Econometrics
ECON 1759  Data, Statistics, Finance
ECON 1765  Finance, Regulation, and the Economy: Research

Total Credits 16

1 APMA 0330 and APMA 0340 may be substituted with advisor approval.
2 No course may be used to simultaneously satisfy the "financial economics," the "mathematical economics," or the "data methods" requirements.
3 Or ECON 1110 with permission.

Honors and Capstone Requirement

Admission to candidacy for honors in the concentration is granted on the following basis: 3.7 GPA for Economics courses, and a 3.5 GPA overall. To graduate with honors, a student must write an honors thesis in the senior year following the procedures specified by the concentration (see Economics Department website). Beginning with the class of 2016, students not writing an honors thesis must complete an alternative senior capstone project and obtain the approval of a faculty sponsor.

Professional Track

The requirements for the professional track include all those of the standard track, as well as the following:

Students must complete two two-to-four month full-time professional experiences, doing work that is related to their concentration programs. Such work is normally done within an industrial organization, but may also be at a university under the supervision of a faculty member.

On completion of each professional experience, the student must write and upload to ASK a reflective essay about the experience addressing the following prompts, to be approved by the student's concentration advisor:

• Which courses were put to use in your summer's work? Which topics, in particular, were important?
• In retrospect, which courses should you have taken before embarking on your summer experience? What are the topics from these courses that would have helped you over the summer if you had been more familiar with them?
• Are there topics you should have been familiar with in preparation for your summer experience, but are not taught at Brown? What are these topics?
• What did you learn from the experience that probably could not have been picked up from course work?
• Is the sort of work you did over the summer something you would like to continue doing once you graduate? Explain.
• Would you recommend your summer experience to other Brown students? Explain.
